2. Core Super Admin Capabilities by Module

SECTION NAME	ADMIN FEATURES & TOOLS	EXACT IMPACT ON MAIN WEBSITE
Course & Module Manager	Add/Edit Courses, create sequential Modules, upload Video MP4s/PDFs, set pricing, discounts.	Directly updates <code>/courses/</code> catalog, course detail pages, and dynamic lesson player.
Olympiad & Exam Engine	Schedule national Olympiads, set exam date/time windows, add MCQ question banks, auto-rank.	Displays live contests on <code>/olympiads/</code> , generates digital medals and certificates.
CRM & Lead Center	Track student inquiries, franchise leads, school partnership requests, call logs.	Captures inputs from Contact Us, Franchise Forms, and Institutional tie-up forms.
Team & Staff Management	Add mentors, advisors, founders with real-time photo preview and strict 80px sizing.	Directly renders verified leadership grid on public <code>/team/</code> and <code>/about/</code> pages.
Financials & Invoices	Fee collections, expense heads, transaction logs, discount coupon generation.	Applies discount coupons at checkout (e.g. <code>EDUAIQ-500FF</code>) and validates orders.

B2B Institution Portal (/institution_login.html)

Institution Admin Role (School Principals / College Heads)

Access: /institution_login.html | Role: institution_admin

WHAT INSTITUTIONS CAN DO

- Bulk Student Onboarding:** Upload CSVs to register entire school grades and batches in one click.
- Batch Progress Tracking:** Monitor class-level attendance, module completion %, and average quiz scores.
- Institutional Olympiad Arena:** Host inter-school and intra-school competitions with customized leaderboards.
- Co-Branded Certificates:** Issue certificates with School Logo + EduAiQ Certification seals.

MAIN WEBSITE VISIBILITY

- Public Partner Listing:** Partnered school logos appear on the /institutions/ showcase, homepage and
- Tie-Up Lead Pipeline:** Prospective schools can apply via the Institutional Inquiry form on the frontend.
- Custom School Subdomains:** Support for white-labeled school portals and cohort access keys.

Teacher & Faculty Role (/accounts/login/)

Teacher / Subject Instructor Role

Access: /accounts/login/ | Role: teacher / instructor

ACADEMIC OPERATIONS

- Curriculum Authoring:** Add lesson descriptions, practice quiz questions, and practical assignment briefs.
- Assignment Review & Grading:** Review student code, essay submissions, and project files with feedback scores.
- Timetables & Batches:** Manage class schedules, live session links, and student attendance logs.

STUDENT INTERACTION

- Doubt Resolution:** Respond to chapter questions posted by learners.
- Teacher Profile on Website:** Teacher bio, qualifications, and courses appear on public course pages.
- Progress Audits:** Flag struggling students for personalized remedial modules.

Growth Partner & Franchise Ecosystem (/growth-partner-kit/)

Growth Partner & Franchisee Role

Access: /growth-partner-kit/ | /apply-for-franchise/

TURNKEY FRANCHISE ASSETS

- Marketing Collateral:** Printable posters, brochures, pitch presentations, and flyers.
- Dynamic QR Codes:** Branded QR codes linking directly to the partner's referral onboarding page.
- Franchise Playbook:** Step-by-step operational guide for regional training centers.

REVENUE & COMMISSION ENGINE

- Affiliate Commissions:** Automated revenue-share on every student course or Olympiad enrollment.
- Lead Management:** Real-time tracking of leads generated in the partner's designated territory.

Enrolled Student Experience (`/my-learning/` & `/lesson/?id=...`)

My Learning Dashboard (`/my-learning/`)

- Header shows **STUDENT LOGIN** button for authenticated learners.
- Course cards with live progress bars (e.g. 45% Completed).
- 1-Click resume button jumping directly to the student's next unread chapter.
- Instant access to earned certificates upon achieving 100% progress.

National Olympiad Arena (`/olympiads/`)

- Browse active and upcoming national Olympiad competitions.
- Secure exam player with live countdown timer and anti-cheat window monitoring.
- Automated grading with instant score calculation and rank leaderboards.
- Downloadable verifiable digital achievement certificate & e-medal.

100% DRM-Grade Zero-Piracy Content Security Suite

Client-Side Anti-Theft & Screen Recording Protection Suite

EduAiQ implements a defense-in-depth security barrier protecting all video lectures, PDF study materials, and written notes from unauthorized screen captures, copying, or leakage.

Anti-PrintScreen Blackout

Captures `PrtScn`, `Win+Shift+S`, `Mac Cmd+Shift`, instantly blacking out the screen and wiping the clipboard with security warnings.

Loss-of-Focus 40px Blur

When Snipping Tool, OBS, or screen recording software is launched, the player triggers an immediate 40px heavy blur to prevent recording.

Dynamic User Watermark

Student username, User ID, and live timestamp continuously drift across the video/PDF canvas, deterring phone camera recordings.

Global Anti-Copy & Inspect

Right-click context menu, text selection, dragging, `F12`, `Ctrl+Shift+I`, View Source (`Ctrl+U`) completely blocked.

Canvas-Isolated PDF Engine

PDF documents render directly to isolated HTML5 canvas elements with disabled downloads, preventing raw PDF URL theft.

Multi-Format Video Stream

Direct MP4/WebM video streaming with strict cross-origin policies, eliminating YouTube Error 153 and download buttons.

Multi-Format Lesson Player Capabilities (`/lesson/?id=...`)

CONTENT FORMAT	PLAYER EXPERIENCE & SMART FALLBACK	DRM PROTECTION LAYER
Video Lectures	Full-width HTML5 player with multi-codec MP4/WebM support + YouTube/Vimeo embeds.	Download disabled (<code>nodownload</code> <code>noplaybackrate</code>), floating watermark.
PDF Study Notes	Interactive PDF.js canvas viewer with page navigation controls (Prev / Next).	Direct download links removed, right-click blocked, watermark overlay.
Reading Articles	Formatted typography with clear heading hierarchy and estimated reading time.	Unselectable text (<code>user-select: none !important</code>), copy blocked.
Practical Tasks	Module practical tasks with skip-for-now and mandatory end-of-course submission logic.	Secure file upload endpoint with teacher grading review.

Hybrid Business Model & Revenue Streams

B2C Course Sales
Direct enrollment revenue from professional skills, coding, English, and certification courses.

Olympiad Fees
Registration charges for national-level Olympiads and certified skill assessments.

B2B School Licenses
Annual institutional subscription packages for K-12 schools, colleges, and coaching institutes.

Partner Franchises
Franchise onboarding kits, affiliate revenue-share & regional growth partner territory licenses.

How to Pitch EduAiQ: The 5-Step Live Demo Script

- 1

Step 1: Welcome & Homepage Presentation (/)
Open the homepage. Highlight the modern design, glowing capsule offer marquee banner, verified leadership team, AI books showcase, and clean header navigation (**LOGIN** for visitors vs **STUDENT LOGIN** for enrolled learners).
- 2

Step 2: Course Exploration & Student Enrollment (/courses/)
Demonstrate course discovery, filter by categories, transparent pricing with discount badges, and 1-click student enrollment leading into the personal `/my-learning/` portal.
- 3

Step 3: The DRM-Protected Lesson Player & Live PrtScn Demo (/lesson/?id=...)
Open a lesson. Show seamless video playback. Press PrtScn or Win+Shift+S on your keyboard to demonstrate the instant **Blackout Security Shield** and dynamic user watermark! Show how right-click and text copy are completely blocked.
- 4

Step 4: The 8-in-1 Central Super Admin Dashboard (/admin-panel/)
Log in as Super Admin. Walk through the balanced 4x2 KPI metric grid, create a new course module, demonstrate video/PDF uploads, and show the real-time photo preview on Team Member edit pages.
- 5

Step 5: Pitching B2B Institutions & Growth Franchise Kit (/growth-partner-kit/)
Showcase the ready-to-print marketing kits, branded QR codes, and institutional school partnership portals, proving that EduAiQ is ready for immediate nationwide scaling and monetization.

Full-Stack Technical Stack Summary

Backend Architecture
Python 3.12, Django 5.x, Django REST Framework, Custom User Model, Session & JWT Authentication.

Frontend Design System
Responsive Vanilla CSS, Vanilla JS ES6+, PDF.js Engine, FontAwesome 6, Bootstrap 5.3 Framework.

Security & Reliability
CSRF protection, XSS sanitization, DRM client-side shields, SQLite / PostgreSQL production ready.
